D1 / PPC speed bump / End cap and fixing interfaces

R02 / Units mm / 2026-10-04

Cap surface50 / seatZ18

Main seatZ33 / cap seatZ18

Screw10x100; flange24x2 / hex16AF

Plug16x90 / bore10.4

2 cap fixings and4 main fixings; actual section geometry above.

Sloped rounded cap noseR80

Nominal fixing witnesses; helical thread and substrate not modeled.

Below-datum extent90 / surface50 / full hardware envelope140.

## R02 / Units mm / 2026-10-04

Diagram illustrating the layout of a 2x8 grid of colored squares (yellow and dark grey) with red dots. The total width is calculated as  $2960 = 8 \times 345 + 2 \times 100$ .

Diagram illustrating a T-junction configuration. A vertical pipe is shown intersecting a horizontal pipe. A rectangular key is positioned at the bottom of the vertical pipe, with a dimension line indicating a width of 6 key.

CAD clip: x433..457 / y-25..25 / z-5..55
